

VOICES FOR JUST CLIMATE ACTION BRAZIL

Factsheet local partners

Voices for Just Climate Action (VCA) started in 2020 as an alliance with four Southern civil society organizations (CSOs) and two Global CSOs. VCA is now a network that connects almost 200 organizations across seven countries - Tunisia, Kenya, Zambia, Brazil, Bolivia, Paraguay, and Indonesia - at local, regional, and global levels.

LOCAL PARTNERS BRAZIL

In Brazil (Amazon), the VCA local partners employed their own approach to collaborate with their respective local partners to give even more communities a voice. Through this mechanism VCA-Brazil has connected to **72 local partners**. Among them a diversity of rural and urban civil society organizations, alternative media, and grassroots organizations: some youth led, other Indigenous led or woman led, led by local peasants or rural defenders. VCA Brazil has prioritized and promoted women's roles in the Climate Justice agenda in the country, in all its actions. Of the 72 organizations that make up the network in Brazil, **seven are formed exclusively by women**.
