

# VOICES FOR JUST CLIMATE ACTION TUNISIA

## Factsheet local partners

Voices for Just Climate Action (VCA) started in 2020 as an alliance with four Southern civil society organizations (CSOs) and two Global CSOs. VCA is now a network that connects almost 200 organizations across seven countries - Tunisia, Kenya, Zambia, Brazil, Bolivia, Paraguay, and Indonesia - at local, regional, and global levels.

## LOCAL PARTNERS

In Tunisia, VCA has **16 local partners** spread across 6 sites: Beni Khedache, Gabes, Kairouan, Kasserine, Kerkennah Islands, Sejoumi. Among them civil society organizations, alternative media, and grassroots organizations: some youth led, other Indigenous led or woman led. These local partners employed their own approach to collaborate with their respective local partners. Thus, they provide a broader ecosystem of CSOs that connect through the network. VCA Tunisia partnered for example with the Heinrich Boell Foundation, the Social and Economic Rights Forum, Tunisie Verte Network, Stop Pollution, and many other organizations to spread climate justice principles. Also, **an unusual partnership** between a youth movement, VCA partner **Cinema Pour Tous** and **six media channels** was established for joint advocacy.
